Vitamins & Minerals

GUARANTEED ANALYSIS
(Per Scoop – 1 ounce)

- Calcium (min) ...................................... 8% (2273 mg)
- Calcium (max) ...................................... 9% (2557 mg)
- Phosphorus (min) .................................. 5.5% (1563 mg)
- Potassium (min) .................................... 0.8% (227 mg)
- Iron (min) ..................................... 1,450 ppm (41 mg)
- Copper (min) .................................... 340 ppm (9.6 mg)
- Zinc (min) ..................................... 3,000 ppm (85 mg)
- Selenium (min) ................................... 8.5 ppm (0.2 mg)
- Manganese (min) ................................ 1,000 ppm (28 mg)
- Iodine (min) ...................................... 75 ppm (2.1 mg)
- Vitamin A (min) ............................. 100,000 IU/LB (6250 IU)
- Vitamin D (min) ............................... 10,000 IU/LB (625 IU)
- Vitamin E (min) .................................. 500 IU/LB (31 IU)

INGREDIENTS
Distillers dried grains with solubles, calcium carbonate, calcium phosphate, dehydrated alfalfa meal, dry whey product, soybean oil, salt, potassium chloride, choline chloride, zinc sulfate, ferrous sulfate, magnesium oxide, vitamin A supplement, vitamin E supplement, manganese sulfate, copper sulfate, cobalt sulfate, sodium selenite, vitamin B-12 supplement, folic acid, niacin supplement, biotin, natural and artificial flavor, vitamin D3 supplement, menadione sodium bisulfate complex (source of vitamin K activity), DL methionine, calcium pantothenate, riboflavin supplement, thiamine hydrochloride, ethylenediamine dihydroiodide, and pyridoxine hydrochloride.

FEEDING DIRECTIONS
dac® DIRECT ACTION can be fed with either fortified or unfortified grains. Fortified grains contain added vitamins and minerals and require a lower feeding rate of dac® DIRECT ACTION. Feed dac® DIRECT ACTION at the following rates:

Maintenance: 2 ounces (2 scoops) per horse per day with unfortified grains. Consult an equine nutritionist or dac® if feeding with fortified grain.

Pregnant/ Lactating Mares and Performance Horses: 4 scoops (4 ounces) per horse per day. Consult an equine nutritionist or dac® if feeding with fortified grain.

Feeding rate based on 1000 lb. horse.

SPECIAL INGREDIENTS
Essential Amino Acids - Essential amino acids must be supplemented in the horse’s diet, as they are not able to produce these themselves. These amino acids are important in developing healthy muscle, hoof and tissue as well aiding several biochemical pathways within the body.

AVAILABLE SIZES:
- 20# Bucket • 40# Bag
